Part 3 – Recycling Totals

Please report the amount of materials recycled in 2018 that were generated *within* Allen, Champaign, Hardin, Madison, Shelby, and Union Counties in Ohio in the following table. Indicate whether materials were generated by the residential/commercial sector or the industrial sector using the columns below. Residential/commercial sector refers to recycling generated from households, commercial businesses, and institutions such as schools; Industrial sector refers to recycling generated by manufacturing facilities. **The data in the tonnage columns is used to calculate the District's progress in meeting state and local recycling goals.** For data conversions assume the following: 2,000 pounds = 1 ton, 3 cubic yards = 1 ton, 7.5 lbs = 1 gallon of used oil, and 8 lbs = 1 gallon of used antifreeze.
