

NORTH CENTRAL OHIO SOLID WASTE DISTRICT 2018 INDUSTRIAL RECYCLING SURVEY

Confidentiality: The North Central Ohio Solid Waste District (District) will use the information in this survey for summary purposes only to identify types of wastes that may be further reduced or recycled. **Instructions:** Please complete all of the following survey to the best of your ability. Only include recycling tonnage that was generated from Allen, Champaign, Hardin, Madison, Shelby and/or Union Counties during 2018. Upon completion of this survey, please return by **March 22, 2019** in the enclosed pre-paid addressed envelope, by e-mail to joe@ncowaste.org, or by fax to (419) 229-2156. If you have any questions regarding the completion of this survey, please call: Joe Martin at (800) 553-6763.

Part 1 - General Information

Name of Company			
Address			
City		Zip	
Contact Person		Phone	
No. of Employees		SIC Code	

Part 2 – Recycling and Disposal

Table 1 – Data recorded in this table should include all of the materials recycled by your company in 2018 along with the processor/recycler/broker used for each material. Please estimate the quantities of **each type** of material recycled in tons. **The data in the recycled column is used to calculate the District’s progress in meeting state and local recycling goals.** For data conversions assume the following: 2000 pounds = 1 ton and 3 cubic yards = 1 ton.

Table 1 –Recycling in 2018

Category	Total Tons Recycled	Processor/Recycler/Broker (Name/Address/Phone)
Mixed (Commingled) Recycling		
Mixed Paper		
Cardboard ¹		
Non-Ferrous Metals (aluminum, copper, brass)		
Ferrous Metals (steel, iron)		
Glass		
Plastics (#1-#6)		
Other Plastics (specify)		
Textiles (fabrics, clothing)		
Wood		
Pallets		
Rubber (not including tires)		
Tires		
Non-Exempt Foundry Sand		
Concrete		
Food		
Appliances (white goods)		
Lead-Acid Batteries		
Dry Cell Batteries		

Category	Total Tons Recycled	Processor/Recycler/Broker (Name/Address/Phone)
Yard Waste

Totals		

¹ The District realizes that industrial businesses may recycle cardboard but may not have actual weights of the cardboard based on the style of service provided (dumpster service). The District has provided the following table to document the amount of cardboard recycled annually. Simply fill in the size of your dumpster (2, 4, 6, 8 or 10 cubic yard), how full it is when picked up on average (as a percentage) and the number of times the dumpster is emptied each week. Then use the formula in the table below to calculate your annual tonnage of cardboard. An example is given to assist you in the calculation. If you have additional dumpsters, simply perform the same exercise for each separate dumpster. The total tons recycled can then be transferred to the cardboard total in Table 1.

Table 2 – Recycled Cardboard Calculator

Dumpster	Size of Dumpster (cubic Yards) (a)	Percentage Full When Picked Up (b)	No of Pickups per Week (c)	Estimated Cardboard Recycled (Tons) (a) x (b) x (c) x 52 / 20
<i>Example</i>	<i>6 cubic yards</i>	<i>80% full</i>	<i>1 time/week</i>	<i>(6 x 0.80 x 1 x 52 / 20) = 12.48 tons</i>
