

February 2018

Dear Solid Waste/Recycling Manager:

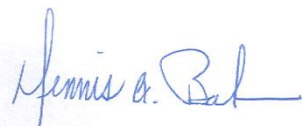

The North Central Ohio Solid Waste District (District) is conducting a survey of District businesses to obtain solid waste recycling and waste reduction information. The purpose of this survey is to gather important data and information that will be used for planning for current and future waste and recycling programs in the District and to help the District complete its "Annual District Report".

To assist the District, we are requesting that you complete the enclosed survey to the best of your ability so that we may, in turn, support you with future programs. Please complete as much of the survey as possible. **Your assistance with this survey will also help the District achieve the long-term goal of reducing the reliance on landfills through increased waste reduction programs and management techniques, allowing you the opportunity to control future costs.**

We appreciate your personal attention in the completion of the enclosed survey. The survey should be completed **using only calendar year 2017 data**. Please be assured that your establishment will not be identified by name in the District's planning efforts.

Please return the completed survey in the enclosed envelope to GT Environmental, Inc., the District's consultant, **by March 9, 2018**, or fax your completed survey to 419-229-2156. If you have questions about the survey, please call me or Joe Martin at (800) 553-6763. A copy of this survey is also available on the District's web site at www.ncowaste.org. We appreciate your cooperation in completing this survey.

Sincerely,

Dennis Baker
Executive Director

Enclosure
